

Meeting: September 30, 2021

Objective: Discuss the information from both the analyst and client meetings. Discuss what the client wants, what was in scope, what was out of scope, potential solutions.

What the client wants:

- Desktop app.
- Use CARSA's existing website for online registration of vaccination.
- Communicate with the current CARSA/UVIC website about Vaccine status.
- Alert if not vaccinated.
- Possibly communicate with the UVIC database instead of directly with Fusion.
- Drop-in as a student should only need vaccination verification once.
- Possibly invalidate vaccine verifications should mandate changes.

How QR codes are scanned in BC:

BC Vaccine Card Verifier App - Distributed by BC Ministry of Health
